

TRAINING DIVISION

NOTICE

December 17, 2013

12.1.1

TO: All Concerned Personnel

FROM: Commanding Officer, Training Division

SUBJECT: FIREARMS QUALIFICATION FOR THE MONTH OF JANUARY 2014

During the month of January, all officers with the exception of Captains and above, and officers with 30 or more years of service, shall qualify with the Department approved shotgun. The attached schedule provides range qualification information for the Academy in Elysian Park, the Davis Training Facility (DTF) in Granada Hills, and the Harbor Area Pistol Range in San Pedro.

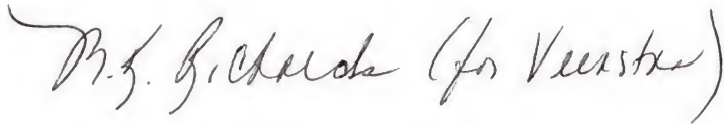

Personnel are reminded that they shall present their Department identification card to the range officer so that it can be scanned, and the qualification activity recorded into the Shooting Qualification and Bonus (SQUAB) System. The identification task will ensure the qualification process is accurately and efficiently documented. The attached schedule provides range qualification information for the Police Academy in Elysian Park, the Davis Training Facility (DTF) in Granada Hills, and the Harbor Area Pistol Range in San Pedro.

Bonus qualification remains an important firearms training objective and is scheduled as frequently as staffing and range availability permit. The attached schedule provides the dates and times in which the bonus course of fire will be available at the Academy and the DTF.

The "Back-Up Qualification Course" must be shot with Department approved .380 duty ammunition only. Officers must supply their own duty ammunition for the qualification course and for deployment in the pistol. Upon completion of the "Back-Up Qualification Course" of fire, officers shall take their qualification receipt to the Department Armory and have the pistol entered on to the Department's Firearms Inventory and Tracking System (FITS). The Back-up Qualification Course will not satisfy the Department qualification requirement, and officers are reminded that they shall still qualify with their primary duty handgun. Officers are reminded that upon successful completion of the back-up qualification course, they must report to the Department Armory to have the weapon recorded in the Firearms Inventory Tracking System (FITS) prior to carrying it for on or off duty purposes.

Personnel who have recently purchased their own duty shotgun shall complete a live-fire certification test and armory inspection prior to deployment. Qualification with the shotgun will accomplish the live-fire certification requirement which is necessary to demonstrate proficiency and ensure the functionality of the shotgun prior to deployment. Personnel who have previously registered their privately purchased shotgun for use in the field are reminded that they shall, in accordance with the "Agreement for Private Purchase of Shotgun for Duty Use," qualify with their shotgun and ensure that the qualification activity is documented on the Area/divisional Shotgun Test Fire Log.

Commanding officers should encourage their personnel to qualify early in the month to avoid delays and congestion that typically occur at the end of the month. Range information may be obtained by telephoning the range recording for the Academy at (213) 485-3139, the DTF at (818) 832-3718, or the Harbor Area Pistol Range at (310) 548-7636.

A handwritten signature in black ink that reads "M. J. Richards (for Veenstra)". The signature is written in a cursive, flowing style.

MICHELLE VEENSTRA, Captain
Commanding Officer
Training Division
